This policy applies to the Approved Provider, Persons with Management or Control, Nominated Supervisor, Persons in day-to-day Charge, staff, students on placement, volunteers, parents/guardians, children and others attending the programs and activities of Bubup Womindjeka Family and Children's Centre.

## DEFINITIONS

The terms defined in this section relate specifically to this policy. For commonly used terms e.g. Approved Provider, Nominated Supervisor, Regulatory Authority etc. refer to the *General Definitions* section of this manual.

**Adequate supervision:** entails all children (individuals and groups) in all areas of the service, being in sight and/or hearing of an educator at all times including during toileting, sleep, rest and transition routines. Services are required to comply with the legislative requirements for educator-to-child ratios at all times. Supervision contributes to protecting children from hazards that may emerge in play, including hazards created by the equipment used.

Adequate supervision refers to constant, active and diligent supervision of every child at the service. Adequate supervision requires that educators are always in a position to observe each child, respond to individual needs and immediately intervene if necessary. Variables affecting supervision levels include:

- number, age and abilities of children
- number and positioning of educators
- current activity of each child
- areas in which the children are engaged in an activity (visibility and accessibility)
- developmental profile of each child and of the group of children
- experience, knowledge and skill of each educator
- need for educators to move between areas (effective communication strategies).

**Behaviour guidance plan:** A plan that documents strategies to assist an educator in guiding a child with diagnosed behavioural difficulties or challenging behaviours to self-manage his/her behaviour. The plan is developed in consultation with the Nominated Supervisor, educators, parents/guardians and families, and other professional support agencies as applicable.

### Challenging behaviour:

Behaviour that:

- disrupts others or causes disputes between children, but which is part of normal social development
- infringes on the rights of others
- causes harm or risk to the child, other children, adults or living things
- is destructive to the environment and/or equipment
- inhibits the child's learning and relationship with others
- is inappropriate relative to the child's developmental age and background.

**Notifiable complaints:** The Regulatory Authority is required to be notified of a complaint that alleges:

# Bubup Womindjeka Family and Children's Centre

- a serious incident has occurred or is occurring while a child is being educated and cared for by a service
- the National Law and/or National Regulations have been contravened.

Complaints of this nature must be reported by the Nominated Supervisor to the Regulatory Authority within 24 hours of the complaint being made (Section 174(2)(b), Regulation 176(2)(b)). If the Nominated Supervisor is unsure whether the matter is a notifiable complaint, it is good practice to contact Department of Education for confirmation.

Notification of complaints must be submitted within 24 hours through either the NQA IT System portal: <http://www.acecqa.gov.au> or where this is not possible, the Regulatory Authority must be contacted directly.

**Inclusion Support Program:** Funded by the Commonwealth Government to assist services to build their capacity and capability to include children with additional needs in mainstream services; providing them with an opportunity to learn and develop alongside their typically developing peers: <https://www.education.gov.au/>

**Mental health:** In early childhood, a child's mental health is understood as a child's ability to 'experience, regulate and express emotions; form close and secure interpersonal relationships; and explore the environment and learn – all in the context of family, community and cultural expectations for young children. Infant mental health is synonymous with healthy social and emotional development. <https://beyou.edu.au/>

**Preschool Field Officer (PSFO) Program:** The role of the PSFO Program is to support the access and participation of children with additional needs in preschool: [Education | vic.gov.au \(www.vic.gov.au\)](http://www.vic.gov.au)

**Serious incident:** A serious incident (regulation 12) is defined as any of the following:

- the death of a child while being educated and cared for at the service or following an incident at the service
- any incident involving serious injury or trauma while the child is being educated and cared for, which
  - a reasonable person would consider required urgent medical attention from a registered medical practitioner; or
  - the child attended or ought reasonably to have attended a hospital e.g. a broken limb\*
- any incident involving serious illness of a child while that child is being educated and cared for by a service for which the child attended, or ought reasonably to have attended, a hospital e.g. severe asthma attack, seizure or anaphylaxis\*.
  - \*NOTE: In some cases (for example rural and remote locations) a General Practitioner conducts consultation from the hospital site. Only treatment related to serious injury or illness or trauma are required to be notified, not other health matters.
- any emergency for which emergency services attended. NOTE: This means an incident, situation or event where there is an imminent or severe risk to the health, safety or wellbeing of a person/s at an education and care service. It does not mean an incident where emergency services attended as a precaution.
- a child appears to be missing or cannot be accounted for at the service
- a child appears to have been taken or removed from the service in a manner that contravenes the National Regulations
- a child was mistakenly locked in or out of the service premises or any part of the premises.

Examples of serious incidents include amputation (e.g. removal of fingers), anaphylactic reaction requiring hospitalisation, asthma requiring hospitalisation, broken bone/fractures, bronchiolitis, burns, diarrhoea requiring hospitalisation, epileptic seizures, head injuries, measles, meningococcal infection, sexual assault, witnessing violence or a frightening event.

If the approved provider is not aware that the incident was serious until sometime after the incident, they must notify the regulatory authority within 24 hours of becoming aware that the incident was serious.

Notifications of serious incidents should be made through the NQA IT System portal (<http://www.acecqa.gov.au>). If this is not practicable, the notification can be made initially in whatever way is best in the circumstances.

## BACKGROUND

The United Nations Convention on the Rights of the Child is founded on respect for the dignity and worth of each individual, regardless of race, colour, gender, language, religion, opinions, wealth, birth status or ability. When children experience nurturing and respectful reciprocal relationships with educators, they develop an understanding of themselves as competent, capable and respected. Relationships are the foundation for the construction of identity, and help shape children's thinking about who they are, how they belong and what influences them [*Early Years Learning Framework*, p. 20; *Framework for School Age Care*, p. 19]

'Constructive everyday interactions and shared learning opportunities form the basis of equitable, respectful and reciprocal relationships between educators and children. Educators who are actively engaged in children's learning and share decision-making with them, use their everyday interactions during play, routines and ongoing projects to stimulate children's thinking and to enrich their learning. These relationships provide a solid foundation from which to guide and support children as they develop the self-confidence and skills to manage their own behaviour, make decisions and relate positively and effectively to others.' (*Guide to National Quality Framework – refer to Sources*)

Child Safe Standard 3 requires services to have strategies to promote the participation and empowerment of children. When children feel respected and valued, they are much more likely to speak up about issues of safety and wellbeing. Enabling and promoting the participation of children within a service has multiple benefits in addition to enhancing the safety of children, including demonstrating a commitment to upholding the rights of children, checking that what the service is doing is what children want and building the communication and leadership skills of children.
